The Intertwine Alliance: Where Leaders Collaborate

Our vision

is for a thriving, multi-jurisdictional, interconnected system of neighborhood, community and regional parks, natural areas, trails, open spaces, and recreation opportunities distributed equitably throughout the Portland-Vancouver region.

The Intertwine Alliance is a new way of doing business, regularly bringing together prominent private firms, public agencies and nonprofit organizations to work collectively to tap new sources of funding, better leverage existing investments, and more fully engage residents with nature and the outdoors.

As a convener, facilitator and backbone organization, we coordinate strategic conversations that lead to greater community impact.

In order to not compete with our nonprofit partners, The Intertwine Alliance does not accept contributions from individuals and avoids competing with its partners for grant funding. Instead, we depend on our partners' contributions to sustain our work. Thank you for supporting the movement for parks, trails, and natural areas in the Portland-Vancouver region!

Building the capacity of our partners

The Alliance extends and empowers the work of our partners. We only perform those tasks that require a coalition. Everything else is left to our coalition partners, ensuring that we keep our focus on building your capacity and advancing your agenda.

Attracting investment in parks, trails and natural areas

The Alliance convenes civic leaders and practitioners to strengthen community leadership, leverage investments, coordinate among partners to create efficiencies, and attract new sources of funding to the region.

Engaging residents

The Alliance helps residents connect with nature and the outdoors so that they are healthier, happier, have lower costs for transportation, and more deeply value nature.

Creating a movement

Our greatest achievements happen when public, private, and nonprofit organizations and leaders act in concert. The Alliance's primary job is to align and mobilize the community.
