

Columbia Springs 2018 Volunteer Training!

Columbia Springs provides opportunities to explore nature with 100 acres of forest, streams, wetlands, lakes, and over two miles of maintained hiking trails. Each year thousands of K-12 students attend our fieldtrips designed to inspire stewardship. Volunteers are vital in helping us maintain our natural area and provide environmental education to youth. If you are looking for experience as an environmental educator, consider becoming a Volunteer with Columbia Springs!
