

Watershed Wise

Landscaping Webinars

Join us to learn how to create a watershed wise landscape!

This webinar will help attendees design and manage your space using the four principles of watershed wise landscapes:

- Building healthy living soil
- Capturing rainwater as a resource
- Selecting local, climate-appropriate plants
- Using highly efficient irrigation only when needed

Thursday, April 1

5:00 - 6:00 pm

English Webinar

Friday, April 9

10:00 - 11:00 am

Spanish Webinar
